

HackMCA 2022 Code of Conduct:

By participating in any Middlesex County Academy Hackathon event (HackMCA), you agree to abide by the following code of conduct.

Be Responsible:

Please be courteous to other hackers and treat them with politeness. We ask that you behave professionally and responsibly. Do not insult or put down other attendees and keep in mind that harassment and racist, sexist, or exclusionary jokes are not appropriate for this event. If at any point you notice a participant being harassed, please notify the nearest hackathon organizer.

Be Respectful:

Please treat our sponsors, organizers, and judges with the utmost respect because, without them, nothing would be possible. Consider taking some time to meet and speak with them. If they come over to talk to you, we ask that you give them a bit of your time to converse and thank them. They're here for you! Show them you appreciate it.

Be Open:

Differences in opinion should be approached in a constructive manner that promotes effective teamwork. This event is about sparking interest and promoting learning, partnership, and engagement in the developer community.

Failure to comply with the above-stated Rules and Code of Conduct may result in the offending team's disqualification.
